

**FLOYD MEDICAL CENTER
POLICY AND PROCEDURE MANUAL
PATIENT FINANCIAL SERVICES**

TITLE: Financial Assistance Policy (FAP)	Policy No.: FC-016
Purpose: To set forth the eligibility criteria and process relating to Floyd Medical Center's provision of financial assistance to qualifying patients for emergency and other medically necessary care.	Developed Date: 03/25/2013 Review Date: 06/2016 Revised Date: 11/10/2017,4/6/2018 Review Responsibility: Revenue Cycle
Reference Standards: IRC § 501(r)	

Policy:

Floyd Medical Center will provide to qualifying patients free or discounted emergency and other medically necessary care in accordance with the eligibility criteria and determination processes set forth in this Policy. In addition, following a determination of a patient's eligibility for financial assistance, Floyd Medical Center will not charge the patient more for emergency or other medically necessary care than the amounts generally billed to individuals who have insurance covering such care, as determined in accordance with this Policy.

As further described below, this Financial Assistance Policy:

1. Includes the eligibility criteria for financial assistance and sets forth the circumstances in which a patient will qualify for free or discounted care.
2. Describes the basis for calculating amounts charged to patients eligible for financial assistance under this Policy, as well as the amounts to which discounts will be applied.
3. Limits the amounts that Floyd Medical Center will charge for emergency or other medically necessary care provided to patients eligible for financial assistance to no more than the amount generally billed to individuals who have insurance covering such care.
4. Describes the method by which Floyd Medical Center determines the Amounts Generally Billed to individuals who have insurance.
5. Describes the method by which patients may apply for financial assistance.
6. States that the actions Floyd Medical Center may take in the event of nonpayment are described in a separate Billing and Collection Policy and explains how an individual may readily obtain a free copy of the Billing and Collection Policy.

7. States that Floyd Medical Center maintains as a separate document a list specifying which providers (other than Floyd Medical Center itself) delivering emergency or other medically necessary care in the hospital are covered by this Policy and which are not and explains how an individual may readily obtain a free copy of the list.

Please note that financial assistance provided under this Policy applies only to charges of Floyd Medical Center. Floyd Medical Center cannot offer financial assistance for the charges of any private physician practices, including those offering services at Floyd Medical Center, and patients will need to make payment arrangements directly with these physician practices.

As required by the Emergency Medical Treatment and Active Labor Act (EMTALA), Floyd Medical Center provides emergency care to all patients, regardless of ability to pay.

DEFINITIONS

Amounts Generally Billed

Floyd Medical Center will apply the “look-back method” for determining Amounts Generally Billed (AGB). In particular, Floyd Medical Center will determine the Amounts Generally Billed for emergency or other medically necessary care by multiplying the Gross Charges for that care by the AGB Percentage.

AGB Percentage

Floyd Medical Center will calculate the AGB Percentage at least annually by dividing the sum of all claims that have been allowed for emergency and other medically necessary care by Medicare fee-for-service and all private health insurers together during a prior twelve (12)-month period by the sum of the associated Gross Charges for those claims. For these purposes, Floyd Medical Center will include in the amount “allowed” both the amount to be reimbursed by Medicare or the private insurer and the amount (if any) the Medicare beneficiary or insured individual is personally responsible for paying (in the form of co-insurance, copayments or deductibles), regardless of whether and when the individual actually pays all or any of his or her portion, and disregarding any discounts applied to the individual’s portion (under this Policy or otherwise).

Federal Poverty Guidelines

The current Federal Poverty Income Guidelines as published in the *Federal Register* from time to time by the U.S. Department of Health and Human Services.

Financial Assistance

Free or discounted emergency or other medically necessary services provided by Floyd Medical Center to patients who satisfy Floyd Medical Center’s criteria for financial assistance and who are unable to pay for all or a portion of the services.

Gross Charges

Floyd Medical Center’s full established rates for the provision of healthcare items and services.

Household Assets

The combined assets (other than Household Income) of the patient, all account guarantors and members of the patient's household, as adjusted in accordance with this Policy. Household Assets include, without limitation, monies held in bank accounts and investment accounts, bonds, certificates of deposit, non-homeplace real property, and trust assets. Excluded from Household Assets are: pension plan assets (including 401(k) plans) provided by an employer if the individual is still employed under the plan and if termination of employment is required in order to receive benefits or a penalty would be imposed for early withdrawal; property (including vehicles) used to produce income; one vehicle per household member of driving age; assets jointly owned by the patient and an individual who is not a member of the household, but only if the patient's access to the asset is solely for the benefit of the non-household member. Applicants for financial assistance may be required to provide documentation regarding the value of Household Assets.

Household Income

The combined amount, before taxes, for all account guarantors and members of the patient's household from earnings, unemployment compensation, workers' compensation, Social Security, Supplemental Security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, income from estates, trusts, educational assistance, alimony, child support, assistance from outside the household, and other miscellaneous sources.

Emergency and Medically Necessary

Emergency care is defined as medical services required for the immediate diagnosis and treatment of medical conditions which, if not immediately diagnosed and treated, could lead to serious physical or mental disability or death. Medically Necessary service is defined by Medicare (*i.e.*, services or items reasonable and necessary for the diagnosis or treatment of illness or injury). Any dispute as to the status of Emergency or Medically Necessary services will reviewed by the Senior Vice President and Chief Medical Officer to make a final determination.

Guarantor

An individual other than the patient who is responsible for payment of the patient's bill.

ELIGIBILITY CRITERIA FOR FINANCIAL ASSISTANCE

A patient is not eligible for financial assistance if Household Assets of the patient and any guarantor are valued at \$25,000 or more, regardless of the patient's or the guarantor's income.

A patient may qualify under this Policy for **free** emergency or other medically necessary care when the aggregate Household Income of the patient and any guarantor are equal to or less than 125% of the current Federal Poverty Guidelines and the aggregate Household Assets of the patient and all guarantors are valued at less than \$25,000.

An **uninsured** patient is defined as a patient with no health insurance or other third party payor coverage and may qualify under this Policy for **discounted** emergency or other medically necessary care when both (i) the aggregate Household Assets of the patient and any guarantor are valued at less than \$25,000 and (ii) the aggregate Household

Income of the patient and any guarantor is in excess of 125% but equal to or lower than 325% of the Federal Poverty Guidelines.

An **insured** patient may qualify under this Policy for **discounted** emergency or other medically necessary care when both (i) the aggregate Household Assets of the patient and any guarantor are valued at less than \$25,000 and (ii) the aggregate Household Income of the patient and any guarantor is in excess of 125% but equal to or lower than 235% of the Federal Poverty Guidelines.

Financial Assistance is not applicable to an insurance company's or benefit plan's payment responsibility under a health benefits plan or any third party payor responsibility for the medical services, regardless of whether the insurance company or plan has made payment to the patient or to Floyd Medical Center.

In addition to meeting the Household Income and Available Household Assets criteria set forth above, in order to be eligible for Financial Assistance under this Policy, a patient also must:

- Complete the Financial Assistance Application provided by Floyd Medical Center;
- Supply all documentation requested by Floyd Medical Center in accordance with this Policy and the Financial Assistance Application form;
- Apply for all public assistance programs requested by Floyd Medical Center including, for example, Medicaid, Social Security, disability, Victims of Crime, etc.; and
- Cooperate with Floyd Medical Center in determining whether or not the patient is eligible for Financial Assistance under this Policy.

Floyd Medical Center will provide reasonable assistance to patients in pursuit of public benefits for which they may qualify (such as, for example, Georgia Medicaid, Social Security, Victims of Crime, etc.) and any third party payor coverage (such as, for example, worker's compensation or auto/personal liability insurance). Floyd Medical Center may use the services of outside vendors to assist patients in seeking these benefits. It is imperative that patients or patients' guarantors comply with the application process for any public benefits or assistance in obtaining any third-party payor responsible for the bill. Those who do not cooperate will be denied Floyd financial assistance.

Insured Patients with Copayment and Deductible qualify for Charity:

Patients whom are underinsured or cannot pay the patient portion of the bill (copayment and deductible) and they qualify for financial assistance, may have that portion of the bill written off to Charity. The manager of patient financial services will run a quarterly report to identify the co-insurance and deductible amounts that were adjusted to Charity.

Non-Covered Medicaid Charges:

Medicaid non-covered charges will be included as Charity Care Charges for patients whom qualify for financial assistance. Medicaid patients are indigent by definition. On a quarterly

basis, the manager of patient financial services will request a Summary Hospital Statistical Report from Medicaid. A journal entry will be made with a reclassification of Medicaid contractual to Medicaid non-covered charity account on the general ledger.

Bankruptcy:

Patients whom file for bankruptcy are to be considered indigent. The write-off of all patient balances or a commercial insurance balance related to the Hospital service should be taken as a charity transaction code. The documentation for Chapter 7 or Chapter 11 will be obtained from the Bankruptcy Court that is applicable to the situation.

BASIS FOR CALCULATING AMOUNTS CHARGED TO PATIENTS

Floyd Medical Center will not charge patients eligible for Financial Assistance under this Policy for emergency or other medically necessary care more than the Amounts Generally Billed to individuals who have insurance covering such care (*i.e.*, Floyd Medical Center will not charge patients eligible for Financial Assistance under this Policy for emergency or other medically necessary care more than the Gross Charges for such care multiplied by the AGB Percentage.) Individuals may request the AGB Percentage in effect at any particular time by contacting the Financial Counseling Department or the Billing Office at the addresses and phone numbers listed below.

In addition, Floyd Medical Center will provide free or discounted emergency or other medically necessary care to patients eligible for Financial Assistance under this Policy in accordance with the chart attached to this Policy as **Exhibit A**. The discount percentages shown on **Exhibit A** shall be applied to the Gross Charges for such care multiplied by the AGB Percentage. For insured patients, the discounted Gross Charges will be used to calculate only the patient's financial responsibility under the applicable health benefits plan. The health plan's financial responsibility will be based on the plan's terms and Floyd Medical Center's agreed rates without further adjustment, regardless of whether the health plan has made payment to the patient or to Floyd Medical Center. The dollar amounts on **Exhibit A** will be updated from time to time as necessary to reflect the then-current Federal Poverty Guidelines amounts.

Floyd Medical Center will charge patients eligible for financial assistance under this Policy less than Gross Charges for services other than emergency or other medically necessary care.

METHOD BY WHICH PATIENTS MAY APPLY FOR FINANCIAL ASSISTANCE

To apply for Financial Assistance, patients or their guarantors must complete the Financial Assistance Application provided by Floyd Medical Center and provide all documentation requested by Floyd Medical Center in accordance with this Policy. In particular, all applicants for Financial Assistance must provide proof of Household Income and Household Assets by providing copies of all of the following that are applicable:

- Paycheck stubs for at least the last four weeks or a statement from employer verifying gross wages
- IRS Form W-2 issued during the past year
- Most recent IRS Form 1040

- Most recent two months of bank statements for each checking, savings, money market or other bank or investment account
- Written statements for the most recent two months for all other income (e.g., unemployment compensation, disability, retirement, student loans, etc.)
- Unemployment compensation denial letter
- Documentation of asset values, including, without limitation, property tax statements
- Contribution statements from individuals who contribute income or in-kind assistance to the patient

If an applicant does not have any of the listed documents to demonstrate Household Income or Household Assets, the applicant may call the Financial Counseling Department or the Billing Office at the phone numbers listed below and discuss other evidence that may be provided to demonstrate eligibility.

Floyd Medical Center generally will render a decision in writing regarding whether an individual qualifies for Financial Assistance within five business days after its receipt of a complete Financial Assistance Application. The written notice will include how the patient may receive a more generous discount through prompt payment guidelines described in the Payment Arrangements Policy PFS-030.

Incomplete applications and those lacking supporting data will be returned to the applicant along with a written description of the additional information and/or documentation required in order for the individual to complete the application.

Floyd Medical Center will make financial counselors reasonably available to provide assistance with the Financial Assistance Application.

Approval of Financial Assistance in the form of free care or discounts, as applicable, will apply only to the episode of care for which the patient has submitted a complete Financial Assistance Application and Floyd Medical Center has found the patient to be eligible.

ACTIONS FLOYD MEDICAL CENTER MAY TAKE IN THE EVENT OF NON-PAYMENT

The actions that Floyd Medical Center may take in the event of non-payment are described in Floyd Medical Center's Billing and Collections Policy. Individuals may obtain a copy of the Billing and Collections Policy on Floyd Medical Center's website at www.floyd.org/bill, in both English and Spanish.

WHERE TO FIND FURTHER INFORMATION REGARDING FLOYD MEDICAL CENTER'S FINANCIAL ASSISTANCE

Floyd Medical Center makes this Financial Assistance Policy, the Financial Assistance Policy Application form and a plain language summary of this Financial Assistance Policy widely available on its website at www.floyd.org/bill, in both English and Spanish. In addition, Floyd Medical Center makes paper copies of this Financial Assistance Policy, the Financial Assistance Application, list of covered and non-covered providers (**Exhibit B**), List of Covered and Non-covered services (**Exhibit C**), and a plain language summary of this Financial Assistance Policy available, upon request and without charge, in Admissions and Registration areas and, during normal business hours, at the following

locations:

Financial Counseling Department
Floyd Medical Center
304 Turner McCall Boulevard
2nd Floor
Rome, Georgia 30165
706-509-6940

Billing Office
Floyd Medical Center Corporate Support
420 E. Second Avenue
Suite 102
Rome, Georgia 30161
706-509-6000

Individuals may also receive a copy of these documents by mail by contacting the Financial Counseling Department and Billing Office listed above.
